PHILIP HELDTMANN, Cashier

OFFICE HOURS: 9 A.M. TO 4 P.M.
SATURDAYS UNTIL 10 A.M.

CHICAGO, May 1, 1908.

TO WHOM IT MAY CONCERN:

It gives us pleasure to recommend the Chicago Millwork Supply Co., and testify to their integrity, reliability, and general business ability.

They are the largest mail-order house in Chicago, in their special lines, and thoroughly responsible.

Parties may feel perfectly secure in sending them the money with their orders, as we understand the company agrees to promptly rectify mistakes of whatever nature on their part to the entire satisfaction of the purchaser, or refund the money immediately.

The officers and stockholders of this company are well and favorably known to us, they have had a lifelong experience in their line of business, and can be relied upon to do exactly as they agree.

Yours Very Truly,

INDUSTRIAL SAVINGS BANK.

Henry C. Klehm
President

YATES CENTER, KAN., Jan. 1, 1908.
Chicago Millwork Supply Co.,
Chicago, Ill.

GENTLEMEN:—

I note that you are moved into larger quarters, and I hope for you to have a successful and profitable new year's business.

Will state that the building material I ordered from your house was used by myself in the construction of my dwelling built this year, and I am quite sure I profited by ordering of you rather than of my local lumber dealer. In fact I saved \$59.00 on the six large columns I bought of you for \$161.00 delivered at this place, rather than to have bought them of my local dealer, and he told me he was furnishing this material at cost.

Yours truly,
W. M. PATTERSON.

CADILLAC, MICH., Feb. 29, 1908.
Chicago Millwork Supply Co.,
Chicago, Ill.

GENTLEMEN:—

We received your letter and the enclosed check and thanks for the same. You may depend upon our doing all the business with your firm possible, for we like to deal with people who send the kind of goods we pay for and whose word is of some account. You will probably hear from us before long.

Hoping for your continued success, we remain,

Very truly yours,
A. L. BURCHARD & SON.

We have thousands of other customers who are just as fully satisfied, but lack of space prevents our adding their proof. Our motto is to fill every order so that each bill of goods will be our salesman to bring us more orders.

FINDLAY, ILL., Feb. 1, 1908.
Chicago Millwork Supply Co.,
Chicago, Ill.

GENTLEMEN:—

I have received order No. 3,052 and I think that is all for this job. I am well pleased with your goods, as well as the parties that they were for, as they are satisfied.

Hoping to be able to place a few orders with you this coming year, I remain,

Yours truly,
OLIVER DAWDY,
Contractor and Builder.

MECHANICSVILLE, N. Y., Feb. 1, 1908.
Chicago Millwork Supply Co.,
Chicago, Ill.

DEAR SIR:—

Enclosed find check for amount due less freight bill. The columns were just as satisfactory as ones shipped previously.

Pardon delay in sending check, as statement was mislaid.

Yours very truly,
W. D. TWEEDY,
Contractor and Builder.

MOLINE, ILL., Oct. 14, 1907.
Chicago Millwork Supply Co.,
Chicago.

GENTLEMEN:—

Mr. Kennicott has handed me your letter and I will be in Chicago in a few days and come out and settle my bill.

I am very much pleased with your work, which is as fine a job as I ever saw, both in workmanship and material.

Respectfully yours,
HENRY C. KLEHM.

Our Guarantee Goes with Every Order

All we ask is a chance to prove the quality of our goods by sending you a trial order.

Quality

We absolutely guarantee every article of merchandise shown in this catalogue, kind for kind, to be in every way equal and in a great many cases better in quality than the goods furnished by any other dealer, catalogue house or retail lumber dealer. If you do not find the goods just as ordered and exactly as we represent them, they may be returned to us and **your money will be refunded** together with the **freight charges both ways**. Remember, our goods are guaranteed to be strictly up to and in many instances, above the official grades adopted by the Sash, Door and Blind Manufacturers' Association of the Northwest. Much other millwork is **not**.

Safe Delivery

We absolutely guarantee safe delivery anywhere, no matter where you live. We will replace broken glass or damaged goods **on condition** that you send us the paid freight expense bill, with notation thereon signed by the Freight Agent stating condition of goods on arrival at destination. **We must** have this statement of your agent so that we can make **our** claim against the railroad company for damages, but **you** are **not delayed** by that. **Very seldom** anything breaks, as we **pack** everything **carefully**.

Official Grades

Sash, Doors and Blinds

Adopted by the Wholesale Sash, Door and Blind Manufacturers' Association of the Northwest.

Doors

AAA. Oil Finish Doors.—Material for AAA oil finish Doors must be Clear, no white sap admitted. Workmanship must be good.

AA. Oil Finish Doors.—Material for AA oil finish Doors must be Clear, with the exception that white sap will be admitted, not to exceed twenty-five (25) per cent of the face of any one piece. Workmanship must be good.

A or No. 1 Quality.—Material in No. 1 Doors must be Clear, with the exception that water stains and small pin knots not exceeding one-fourth ($\frac{1}{4}$) inch in diameter may be admitted. No piece to contain more than two (2) such defects and no door more than five (5) such defects on each side; white sap not considered a defect. Workmanship must be good.

B or No. 2 Quality.—Material in No. 2 Doors may contain knots not to exceed one (1) inch in diameter, and blue sap showing on both sides not to exceed fifty (50) per cent in any one piece of the door and gum spots showing on one

(1) side of a piece only and other slight defects, shall not exceed ten (10) in number on each side and each white pine stile, bottom and lock rail must contain at least one (1) and not to exceed three (3) such defects; plugs admitted and not regarded as a defect. Slight defects in workmanship admitted.

C or No. 3 Quality.—Material for No. 3 Doors may contain all stained sap and small worm holes and fine shake; also knots not exceeding one and three-fourths ($1\frac{3}{4}$) inches in diameter. Twenty (20) defects may be allowed on each side, also slight defects in workmanship. Each piece of white pine in a No. 3 Door must contain a defect. Not more than six (6) defects allowed in any one piece.

No. 4 Quality.—No 4 Doors are regarded as a cull door and must contain large coarse knots and may contain rot, worm holes, shake and other serious defects.

Windows

Check Rail Windows may contain two (2) knots three-eighths ($\frac{3}{8}$) inch in diameter or one red knot five-eighths ($\frac{5}{8}$) inch in idiameter in each piece of a window. White sap and not over thirty-three and one-third ($33\frac{1}{3}$) per cent blue sap may be admitted in any one window. Workmanship must be good.

Plain Rail Windows and Sash may contain blue sap and small knots.

Blinds

No. 1 Outside Blinds must be made of Clear lumber, except that small, sound pin knots, water stain and white sap, may be admitted. Workmanship must be good.

Woods Admissible

Woods other than Michigan, Wisconsin and Minnesota or Western White Pine admitted in Doors, Blinds and Windows, except in Oil Finish Goods.

We protect you in every way.

Your money will be returned to you for any goods received not as represented, and we will pay freight charges both ways. All we ask is, that you write us why, if the goods are not satisfactory before shipping them back. **See letter from our Bankers on first page.**

For Index, see Page 6.

Terms of Payment.

First—25% of amount purchased to be sent us with order; the balance to be paid on arrival of goods C. O. D. with privilege to examine, to see if everything is found all right before paying draft.

Second—*Bank guarantee or Merchant guarantee.* Where a Bank guarantee or a guarantee of any responsible merchant, with rating in Dun or Bradstreet, accompanies the order, no down payment is necessary. Goods will be shipped subject to payment within 5 days after arrival.

Third—Neither down payment or Bank guarantee is required where the purchaser is in business and has a suitable credit rating in either Dun, Bradstreet or the Lumbermen's Mercantile Agency. Where parties ordering goods from us have no credit rating in either of the Commercial Agency books, then terms as outlined in either "First" or "Second" must be compiled with on orders amounting to \$20 or more. On orders amounting to less than \$20 full payment should accompany the order.

We are compelled to insist on above terms as we do no credit business; but, on the contrary, make low net cash prices for payment, part with order and the balance upon receipt of goods, with privilege to examine to see if everything is found O. K.

Doing strictly a mail order business and without salesmen, we have no way of determining credit, other than by rating in Commercial Agency books. The terms we insist upon in no way reflect on any of our customers, as it is often true that responsible parties, not engaged in mercantile business, may not be rated in any of the Commercial Agencies; but, as we have no other method of determining credit than through these agencies, we are obliged to insist upon compliance with above terms of payment.

About Remitting Money.—Send your money by Express, Post-office money order, or Bank draft.

Do not send money by open mail.

It is always best to remit by Postoffice or Express order, or Bank draft, but where you send currency by mail, *always have your letter registered.* We can not hold ourselves responsible for currency sent through the mail unregistered.

About Sending enough money with your Order.—In figuring the amount to send us on a full advanced payment for an order, always be sure and make the amount *enough*, as a matter of saving correspondence, time and delay. And, if the amount should happen to over run the amount of goods purchased, we will always refund to you promptly such extra amount.

We Allow no Discount.—(Our prices are net), exactly as printed in this catalog. There is no discount to be deducted on either large or small orders. Our prices are based on actual manufacturer's cost of the material and labor that enters into the construction of each article, and our manufacturing profit is so small as to allow no discounts.

We quote **extreme net prices** on **all** items to **all**, which simplifies matters and saves much bother for our customers. In other words, the discount has already been taken off, and our price represents the net cash value from manufacturer direct.

Yours very truly,

CHICAGO MILLWORK SUPPLY CO.

To Buyers of Millwork

We are manufacturing in a wholesale way, a general and complete line of Doors, Blinds, Sash, Frames, Brackets, Porch-work, Interior and Exterior Finish, Veneered Hardwood, Doors, Inside Blinds and everything in the way of woodwork for a house.

We show in this catalog a very complete line of these goods, with net prices on every article shown. We make all our prices net—subject to no discount—in other words, the discount has already been taken off. This plan of quoting makes it plain and clear to every one just what the goods will cost f. o. b. cars Chicago.

Should you want prices at any time on any of the goods shown, delivered f. o. b. cars at your place, send us list or memorandum of what your requirements are for estimate price and we will be pleased to quote, with list of items at hand, a delivered price for the order. But, in most cases, you can easily determine the approximate cost of freight from the Freight Tables shown on pages 11 and 12 of this catalog.

We will be glad to submit estimates from plans or from any list of items that may be sent us for estimate price.

In trading with us you are assured of good stock and manufacturers' prices direct, which will better enable you to compete on such jobs of millwork as you may be furnishing.

Hoping to hear from you often, we remain,

Yours very truly,

CHICAGO MILLWORK SUPPLY CO.

Directions for Ordering

GIVE WIDTH FIRST in specifying sizes; this applies to all goods in our line.

ORDERS FOR SASH should state the size of the glass, number of lights in window, whether plain or check-rail, glazed or unglazed. (If glazed state Single or Double Strength Glass.) For segment or circle top windows, always give the radius of the segment and circle, otherwise we shall make our regular radius, which is the width of the window. For circle head and segment head windows, always state whether they are wanted to finish circle inside and outside, or to finish circle on outside only; also where frames are made, we should have width and height of the frame in the clear, and if not regular Western sizes, as shown in sash measurements in this book, then give size of Sash Opening. (Sketches of odd sash are better than descriptions.)

ORDERS FOR DOORS should state size, thickness, number of panels and quality; if moulded, say if one or both sides, flush or raised moulding. From patterns in this or other catalogues refer by number. If special design, make sketch.

ORDERS FOR OUTSIDE BLINDS should state size of glass, number of lights in window, thickness of blinds, stationary or rolling slats; if for segment or circle head windows, give radius; also it is well to mention if for wood or brick building.

ORDERS FOR INSIDE BLINDS should state exact size of opening (outside measure), the number of folds (width of box, if any), and if panels or slats, and where blinds are to be cut.

ORDERS FOR FRAMES should state whether for a frame or brick building; if for a brick building, give thickness of wall; if for a frame building, give width of studding, and whether outside or inside, or both. For Window Frames, state if for plain or check rail sash, with or without pulleys. For inside door-jamb, give the width of jamb, whether with rabbet or stop.

ORDERS FOR MOULDINGS should give plainly the number of the moulding. We can furnish mouldings selected from any moulding book. If special moulding, give exact detail or sketch.

REFER BY NUMBER in catalog, or send sketches as far as possible on anything other than common stock.

NOTICE.—A window indicates two pieces. A sash indicates one piece, a pair of blinds indicates two pieces. A blind indicates one piece. A set of sash or blinds indicate more than two pieces and orders should be accompanied with elevation.

REMEMBER.—We can furnish designs selected from other catalogs than our own. Just give us the design, number and the name of the book, as we keep a full line of other catalogs. As far as possible, however, select **our designs**, and we can save you **more money**.

Weights and Freight Rates

The net prices in this catalogue are f. o. b. cars Chicago, and all our estimates made upon special inquiry, are priced f. o. b. cars Chicago, unless our customers may ask for prices delivered; in which case, we are pleased to quote a delivered price, upon receipt of memorandum of the goods wanted.

The freight rates are not high from Chicago in our line of goods, and to give our customers in a general way an idea of weights and freights, we enumerate below approximate weights on a few leading standard sizes of articles common to our line; also a tabulated list of the rate of freight per 100 pounds to many of the leading central points in all the different States and Territories, alphabetically arranged by States; so that any customer of ours located at or near any of the points named, can easily determine for himself the approximate freight on any ordinary bill he may contemplate purchasing.

WEIGHTS.

Pine Doors 2-6 x 6-6, 1 in., 23 lbs.; 1½ in., 28 lbs.; 1¾ in., 33 lbs.; 1¾ in., 40 lbs.

Pine Doors 2-8 x 6-8, 1 in., 24 lbs.; 1½ in., 30 lbs.; 1¾ in., 35 lbs.; 1¾ in., 44 lbs.

Yellow Pine Doors, weigh 33¼ per cent more than white pine doors.

Veneered Hardwood Doors, weigh 50 per cent more than white pine doors.

Blinds, 12 x 28, 4 light, 18 pounds per pair.

Blinds, 12 x 36, 4 light, 23 pounds per pair.

Window Frames in ordinary size average 30 pounds.

Windows, 8 x 10, 1½ inch, 8 light glazed, 12 pounds.

Windows, 10 x 12, 1½ inch, 8 light glazed, 15 pounds.

Windows, 12 x 16, 1½ inch, 8 light glazed, 19 pounds.

Windows, 10 x 12, 1¾ inch, 8 light glazed, 18 pounds.

Windows, 12 x 14, 1¾ inch, 8 light glazed, 23 pounds.

Windows, 8 x 10, 1¾ inch, 12 light glazed, 14 pounds.

Windows, 10 x 12, 1¾ inch, 12 light glazed, 21 pounds.

Windows, 10 x 14, 1¾ inch, 12 light glazed, 23 pounds.

Windows, 10 x 12, 1¾ inch, 12 light glazed, 23 pounds.

Windows, 10 x 16, 1¾ inch, 12 light glazed, 29 pounds.

Windows, 20 x 28, 1¾ inch, glazed S. S., 23 pounds, D. S. 25 pounds.

Windows, 24 x 30, 1¾ inch, glazed S. S., 24 pounds, D. S. 26 pounds.

Windows, 24 x 36, 1¾ inch, glazed, S. S., 27 pounds, D. S. 30 pounds.

Windows, 28 x 32, 1¾ inch, glazed, S. S., 28 pounds, D. S. 32 pounds.

Porch Posts, 4 x 4, 8 feet, 26 pounds.

Porch Posts, 4 x 4, 9 feet, 30 pounds.

Porch Posts, 5 x 5, 8 feet, 36 pounds.

Porch Posts, 5 x 5, 9 feet, 42 pounds.

Columns, 8 x 8 (built up), 50 pounds.

Corner, Base and Head Blocks, average 1 pound each.

Balusters, 1¾ inch, 1 pound each.

Spindles, 1¾ inch, ½ pound each.

Kitchen Cabinets, bundled for shipment, 175 pounds.

Hardwood Mantels, bundled for shipment, 350 pounds.

Wood Carpet, fancy hardwood flooring, 1 pound per square foot.

In calculating weights of other articles made of wood, like brackets, stair work, odd windows or doors, porch work, or any manufactured work in wood, it is safe to figure in a general way soft woods at two pounds to each foot of material in the work, and hard woods or southern pine, at two and one half pounds per square foot of material.

From the above, you can approximate in a general way, the weights of any ordinary bill and the table following gives the exact rate of freight per 100 pounds on these different articles, to the scattered selected points in all the different states, arranged alphabetically by states, and your rate of freight to any point near one of the points given would take approximately the same rate of freight from Chicago:

Less than car lot rate per 100 pounds to the following points, arranged alphabetically by States from Chicago	Glazed sash, glazed doors, blinds, glazed front doors	Panel doors, hardw'd doors, columns, frames, blocks, etc.	Mantels, cabinet work	Roofing and Building Paper

Yours very truly,

CHICAGO MILLWORK SUPPLY CO.

WE GUARANTEE SAFE DELIVERY.

We guarantee safe delivery and will replace broken glass or damaged goods on condition that you send us the paid freight expense bill with notation thereon signed by the freight agent, stating condition of goods on arrival at destination. We must have this statement of your agent in making claim against the railroad company for damages. If you think it possible to purchase from your local dealer the glass, you may do so, sending us the receipted bill, together with the freight receipt with agent's notation, as above specified. We will promptly refund the cost of the glass. It is impossible for us to make good any damages done to goods in transit unless you send us freight expense bill, with agent's notation thereon, as requested.

These designs can be made up in any size desired. We do not carry them in stock. Will be pleased to quote you special price on large sizes.
Remember—We can make up for you designs taken from any other catalog if you give us the number of the design and the name of the firm publishing the book, as we keep a complete library of other manufacturers' issues. But we urge the use of our designs in order to save you money.

We **Guarantee Safe Delivery** and will replace broken glass or damaged goods on **One Condition**—that you send us the paid freight expense bill with notation thereon signed by the freight agent stating condition of goods on arrival at destination. We must have this statement of your agent in making claim against the railroad company for damages. If you think it possible to purchase from your local dealer the glass, you may do so, sending us the receipted bill, together with the freight receipt with agent's notation, as above specified. We will promptly refund the cost of the glass. It is impossible for us to make good any damages done to goods in transit unless you send us freight expense bill, with agent's notation thereon, as requested.

BLINDS

Outside Blinds—Rolling Slats

We carry Blinds in stock sizes shown below. Size of Blinds measure same as Check Rail Windows, with addition of 1 inch to bottom rail for sub-sill frame, which can be left off if necessary.

Crown Mold Cap Door Frame C-440

See page 117 for Pulleys and Weights.

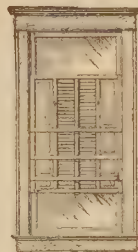

Sliding Blinds

No. 1. This section shows that no special frame is required to use our Sliding Blinds. The guideway is fastened on pulley stile, acting as a stop for the sash.

No. 2. To apply the guideway as shown in this section requires a special frame, and we recommend its use in all cases where the window frames have not yet been made.

C-470

NET PRICES

Prices given are per lineal foot in height, including necessary hardware.

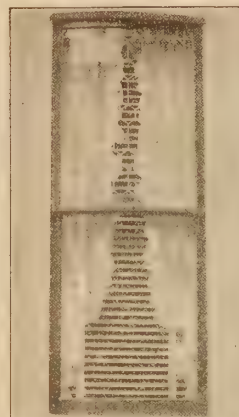

The following Price List is for each foot in height of Spring Balanced Sliding Blinds, one, two or three Sections High.

	Varnish Finish (3 coat gloss).....	1.17	1.40	1.65
	Oil Rubbed Cabinet Finish.....	1.30	1.48	1.75

Measure inside of window from subsill to cap, and between the jambs at widest place—or, in other words, the space to be filled with blind.

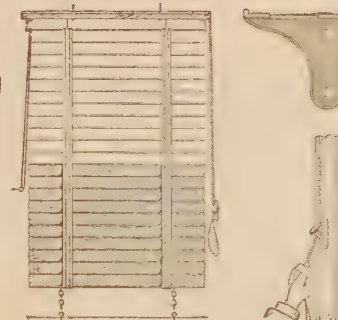

It is always a help to send a diagram of the casing, jamb, sash, etc., showing space for slides and points of measurement. If pockets are used give length of slides required. Exact Measurements are Very Important.

Send us your lists for special quotation. We also make Rolling Partitions.

Victoria Venetian Blind

Best
Venetian
Blind
Made

The Victoria Venetian Blinds have essential improvements and advantages over every device made for a similar purpose and are beyond question the best made. They are made of thin wood slats about $\frac{1}{8}$ inch thick and 2 or 2 $\frac{3}{4}$ inches wide, hung on the best quality of woven ladder tapes, hung within the window frames between jambs or stop beads.

In ordering give exact measurement, width first, between points you will hang the blinds. Make no allowance for free operation—we do that. Give exact width and length between points where blind will hang.

The Victoria Blinds are never swinging out into the room, "sticking fast" or "coming off the roller," and are perfectly noiseless both in use and operation. Can be hung in old and new buildings by any one. They do not interfere with the drapery, which can be placed on either or both sides, can be arranged to admit light from the top, bottom or any part without interfering with free circulation of air if the window is raised. They are perfectly sanitary and can be as easily cleaned as any other piece of furniture. Made only to order to fit the windows.

They require no special frame, can be hung at the top, as this cut suggests, or hung at the side on the brackets. All hardware, fittings, cord, cord-holder, chain and staples for sill fasteners, everything complete goes with the "Victoria."

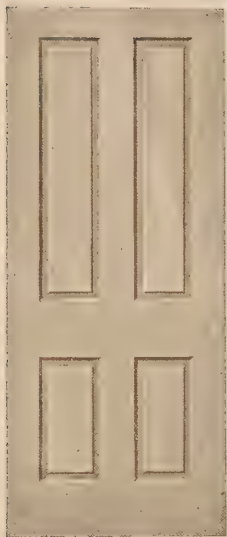

Handsome effects, they do not interfere with the draperies and require no special frame. Are ornamental, practical, desirable and the best and cheapest kind of blind for residences. They are far more satisfactory and durable than shades and are indispensable for schools, hotels, office and apartment buildings.

Kind of Wood	Net Prices per Square Foot	
	2 $\frac{3}{4}$ inch Slats	2 inch Slats
Spurce, Whitewood, Basswood, Yellow and Norway Pine, finished natural, stained to imitate Cherry, Mahogany or Walnut, or painted in dark colors.....	\$0.17	\$0.19
Painted in light colors and tints.....	.19	.21
Painted tint or white enamel.....	.22	.24
White Pine, Cypress, Plain Oak, Ash, Elm, Chestnut and ordinary Maple.	.19	.21
Plain Birch and Butternut.....	.20	.22
Quartered Oak and Sycamore.....	.22	.24

Above prices cover blinds complete, a perfect varnish finish, all hardware, ready to hang. For rubbed finish, add 3c net per square foot.

No blind calculated less than 12 square feet.

Our Painted and Grained Doors are superior to any others on the market. We do not claim they are the equal of an "A" or "B" quality door, but they are a good door. We make these doors from kiln dried pine, the knots and other imperfections thoroughly shellacked and then hand painted three coats best quality paint. The imperfections and knots do not show, nor do they impair the durability of the door. We carry in stock the sizes listed only, and do not make them up in any other size. Try some and you will use more.

Our Turned Balusters and Spindles are all made from clear Western Pine. Smooth and clean stock.

Send for estimate on special work. All items on this page carried in stock except columns C-1408 and 1412.

Newels

In Stock.

Our Turned Porch Columns and Newels are all strictly first quality Oregon Fir and are bored the entire length to prevent checking. We can heartily recommend Fir for outside porch work as it withstands the ravages of all kinds of weather and practical tests bear out this statement. Remember that Fir takes paint as well as White Pine.

8395—Fillet, $\frac{1}{8} \times 1$ 1.04

This Embossed Cap shows up beautifully in
a room and is unquestionably the most popular
Cap in use. It can be used with Head Casing
of any width. Of all moderate-priced caps it is
the most desirable and most satisfactory kind
in use.

A Dust Cap keeps dust from dropping in at
the top and while not absolutely necessary, its
use is recommended.

Grille Department

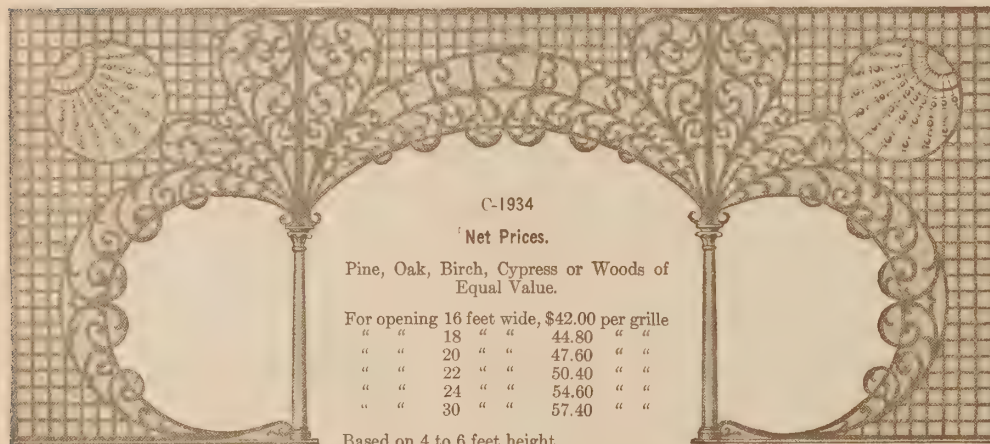

Fine Grilles or Fret Work Our Leading Specialty

We make Grille Work a special feature of our business, and on the following pages will be found the largest and finest assortment of modern designs ever shown.

Grilles may be ordered "in the white" (unfinished), or finished in oil and varnish, ready to put up, at 20 per cent. additional, or finished in white and gold at an advance of 30 per cent.

All Grilles are furnished in the white unless ordered finished.

Always specify exact size, giving correct height and width of opening.

C-1934

Net Prices.

Pine, Oak, Birch, Cypress or Woods of
Equal Value.

For opening 16 feet wide, \$42.00 per grille	
" " 18 " " 44.80 " "	
" " 20 " " 47.60 " "	
" " 22 " " 50.40 " "	
" " 24 " " 54.60 " "	
" " 30 " " 57.40 " "	

Based on 4 to 6 feet height.

Other sizes proportionate in price.

For Bird's eye Maple, Curly Red Birch,
Cherry or Mahogany, add 25 per cent.

Usual drop proportionate.

Designed to set on top of half partition up to ceiling.

Suggestion for Drug Store, Hotel Office,
Ice Cream Parlor, Buffet, etc.

Above prices cover work unfinished (in the white). We add 20 per cent. to above prices when finished in oil and varnish, ready to set up.

For Grilles finished in White and Gold, add 30 per cent. to above prices.

For Freight Rates, see pages 11 and 12.

33 Grand Street,
WHITE PLAINS, N. Y., March 25, 1908.
Chicago Millwork Supply Co.,
Chicago, Ill.

Gentlemen:—

In answer to yours of March 23rd, I will say that all the millwork I have received from you has been perfectly satisfactory in every particular. So much so, in fact, that you will certainly get my orders in the future.

With reference to the last list of millwork, I presume you refer to the flight of stairs, of which I sent you a plan asking for an estimate, I will say that the price was very satisfactory, but owing to the fact of my having a friend here who is a stair-builder with very little to do (which is the case with all classes of mechanics here just at present), I decided to give him the job. Your price was all right and under any other circumstances, I should have placed the order with you.

Will you kindly forward final bill on former contract with freight deductions, and I will send you check for same.

Yours very truly,

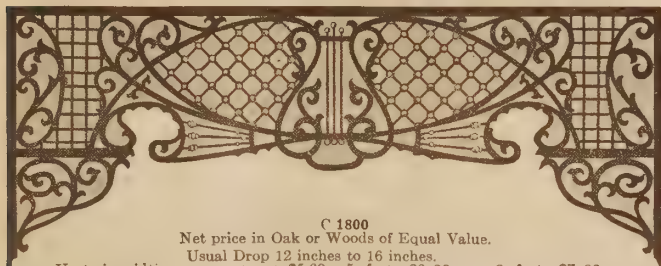

(Signed) FRANK TUCKER.

P. S.—A number of persons here have inspected my millwork and are very much pleased with it. I think it will be the means of benefiting you in this section.

F. T.

Remember we Guarantee everything to be as represented or money refunded without any expense to you.

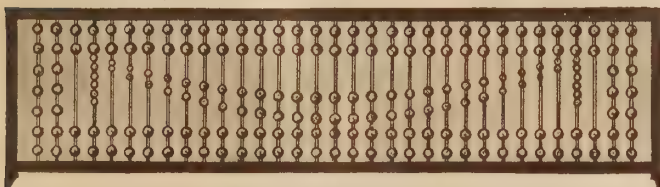

Note letter from our bankers on page 2.

For Freight Rates, see pages 11 and 12.

Hardwood Mantel Department

On the following pages we show a complete line of Hardwood Mantels, all modern designs, workmanship and material of the very best, at the lowest wholesale prices. These Mantels are carried in stock as described, mostly in quarter-sawn Oak "in the white" and require only about one week to ten days to be finished and ready for shipment. Can also furnish them in Red Birch, or Birch stained in imitation of Cherry or Mahogany, where so stated in description.

The price named under each cut includes the woodwork finished ready to set up, and everything complete as shown, except the thirty fire brick, which can usually be bought as home for less than the freight from Chicago, and it is not customary to include them unless especially ordered.

An Oak Mantel can be finished Medium Antique or Old English, or in Oil Natural—the latter is our customary way of finishing—unless specified otherwise, or if sample of room finish is sent us, we can finish Mantel to match.

Any of these designs can be furnished in Curly Birch at an advance of 20 per cent.; in Bird's Eye Maple, or in White and Gold at an advance of about 30 per cent. For genuine solid Cherry over and above the price of Birch finished to imitate Cherry, the advance cost is about 15 per cent. All Mantels are made 5 feet wide, which is the standard size; when necessary, wall plates for extending Mantels up to 5 feet 6 inches can be furnished at a net cost of \$1.50 extra per Mantel.

The enamel and embossed tiling as shown in cuts on face and hearth can be changed about and substituted in the different Mantels, and in most cases without extra charge. These are different shades and tints of tiling, and if left to us we select those which harmonize best with the wood selected, or if desired, would forward samples of tiling for your own selection.

GRATES—We show on pages 72, 80, our full line of Grates, any of which can be used in any of the Mantels shown, and as per prices on each page. The demand for a Grate that has a perfect draft, and at the same time is handsome and serviceable, and can be easily set by any mason, has resulted in our Grate outfits Nos. B and D. They are made like stoves, complete, all in one piece, and do not require a mason to set them. The fire pots are lined with a heavy fire-clay lining and have the latest improved shaking bottoms.

These grates entirely overcome smoky chimneys; the fire is quickly started by opening the lower damper, directly over and close to the fire; forming a rapid current of air, giving a direct draft and carrying off the smoke. When the fire is started, the lower damper can be closed, and the heat is then reflected into the room; the upper damper is also closed, allowing the slide of same to remain open any desired width to control the fire. These grates are very elegant in design and have the latest and most serviceable finish.

For a cheaper Grate, we recommend our No. A and No. 1 combination Grate, of very elegant design. Basket Grate, ash screen hung on frame. Frames have canopy frieze.

In ordering Mantels always give width of chimney breast, and the kind of wood and finish wanted.

A Mantel boxed for shipment weighs approximately 350 lbs. Complete instructions for building fireplaces and setting Mantels mailed on application and furnished with each shipment.

There are no Mantels made that are superior to ours, either in workmanship, finish or materials. We guarantee them to be the Best.

Hardwood Mantels

C-2321

Net price of Mantel complete with tile hearth and facing and grate as per Outfit No. 1, page 72.....\$26.25
Net price complete with tile hearth and Grate Outfit No. 2, shown on page 72.....33.25

Height, 6 feet 8 inches, width, 4 feet 6 inches to 5 feet. Tile opening, 36 inches wide, 36 inches high. Tile projection, 4 inches. French bevel plate mirror, 14x24 inches. Made of selected oak, finished in a rich golden oak, superior gloss finish. Can also be had in whitewood, finished imitation mahogany for \$1.00 net extra. A very popular mantel at a price that anyone can afford. Note rich carvings on topboard and around mirror; also small shelves back of columns, these shelves being particularly well suited for the reception of bric-a-brac, etc.

For full description of different Grate Outfits suitable for above mantels, see pages 72-80 and 81.
In ordering specify by number which grate outfit is wanted.

C-2322

Net price of Mantel complete with tile hearth and facing and grate as per Outfit No. 1, page 72.....\$27.95
Outfit No. 2, page 72.....34.95

Height, 6 feet 8 inches; width, 5 feet. Tile opening, 36 inches wide, 36 inches high. Tile projection, 3 inches. Veneered columns, 2 3/4 inches in diameter. French beveled plate mirror 14x24 inches. Made of selected oak, finished in a rich golden oak, superior flow finish. A design of exceptional merit that is without an equal at the price offered. Shelves wide and roomy. Columns well proportioned. Altogether a style that speaks for itself.

Outfit No. 2

Front View of No. 2 Chicago Mounted Buckeye Grate.

Showing Summer Front in Position.

24½ inches wide, 30¼ inches high. Fire-pot 20 inches wide, 9¾ inches deep.

Description of Combination Grate Outfit No. 1

The No. 80 Combination Grate which we show is undoubtedly the handsomest grate of its kind on the market.

The basket is of heavy iron and hangs on the frame which is also made of heavy cast iron, and the fire brick should be built to fit snugly up to the basket. The basket is so made that it is very easy to poke out the ashes. The grate is suitable for burning hard coal, soft coal or wood.

NOTE—No Fire Brick or Top Tiles are included with our Combination Grate for the reason that these articles are a common commodity which can be bought in almost any hardware store for less money than we could afford to deliver them, as they are heavy freight.

Outfit No. 2

Side View of No. 2 "Chicago" Mounted Buckeye Grate.

Showing double draft damper arrangement.

THE CHICAGO GRATE

Pat. July 19, 1892.

A good serviceable double draft grate, single basket front, suitable for soft coal, hard coal or wood; has tile fire back, iron sides to air chamber which prevent burning out, made with dumping bottom. The back bar and trunnions in these grates are not protected as in the Majestic.

For a medium-priced fireplace, they have no equal in either finish, construction or weight.

All made with our patented loose cross piece, which prevents cracking or warping.

All mounted ready for use, one grate in a case.

ASBESTOS GRATE Outfit No. E. Gas Burning

Quality—Economy, cleanliness and beauty are features that have been admitted by all who have outfit E; each grate produces the greatest possible heat for the gas consumed, the combustion being as near perfect as it is possible to get in a grate. It is more economical than coal. Absolutely without dust or ashes. The cleanest, quickest and cheapest fire ever produced. Try one and be convinced.

Grate No. E—Consists of complete asbestos Gas Grate, cast iron frame, and steel summer piece, oxidized brass or copper plated.

Size— $24\frac{1}{2}$ inches wide by $30\frac{1}{4}$ inches high. It is fitted with our latest improved 5-row steel burners, spreading one continuous sheet of fire over the asbestos back, and radiating at least one-third more heat than can be produced by any other gas grate with the same amount of gas. It has projecting canopy top, and damper for regulating the ventilation; also gas valve, air mixer and copper reflectors. Grate is all put together complete, ready for use.

Wood Carpet and Ornamental Parquetry

This flooring is made of Hardwood Strips, $1\frac{1}{2}$ -inch wide, glued to heavy cotton cloth.

It is made in widths of 27 inches and 36 inches, and in sections containing 4 yards. Any quantity can be taken by simply slitting the cloth between the slats. The widths can be ripped to 6, 9, 12, or 18 inches to be used as borders or margins next the walls, at a slight additional cost for cutting.

With this Wood Carpet can be used our strip and ornamental borders as shown in some of the following combinations or designs.

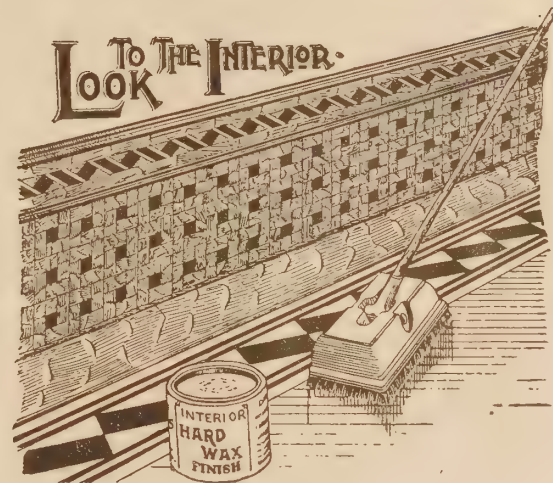

Wood Carpet can be easily laid by any ordinary carpenter, if he will follow the directions given, and the working plans we send. It can be laid right over your old floor or any ordinary flooring as a foundation.

DIRECTIONS FOR LAYING WOOD CARPET.

Start at the wall, removing the quarter-round, then measure out into the room from the wall the width of the first breadth of carpet and tack down the strips marked "A" in the cut shown. Measure your space thus framed for the center to make certain it will contain the other breadths as planned. Be sure that the corners turned by this strip are square. Lay and brad the breadths from the center of the room, then put down the outside breadths, bringing it up to the strip first laid. The quarter-round should cover the row of brads next the wall.

Nailing Wood Carpet—Drive the brads in rows about 9 inches apart, placing a brad at each edge of each slat as shown in cut. Use a $1\frac{1}{2}$ -inch No. 15 wire brad. After the whole has been bradded down, go over, and with a punch not larger than the head of the brad, sink each brad $\frac{1}{8}$ -inch below the surface of the wood.

Smoothing Off—After the brads are all driven and countersunk, go over the floors carefully, and where any joints are found uneven make smooth with a steel hand scraper. Any hammer marks indenting the wood should be scraped out, as they will show when the polish is on.

HOW TO FINISH HARDWOOD FLOORS.

In the finishing of wood carpet or hardwood floors, it is not necessary that the material we suggest be used; that is, you could treat the finishing of your floor as you would any other hardwood floor, but the finishing materials we can furnish you are the best that can be had and at a low price. Our larger interest in the flooring itself is a guarantee that the finishes we furnish are the best that can possibly be offered.

NET PRICE—Finishing Material

Paste Wood Filler in cans, 2, 5 and 10 lb., per lb.	\$0 15
Parquet Lac Quarts.	80
Half Gallons.	1.55
Gallons.	2.75
"Interior" Hard Wax, per lb.	.35
Weighted Floor Brushes.	2.00

In finishing new floors the wood should first be filled. Use the weighted brush for sanding before filling, then a coat of parquet lac applied after filling and before waxing. In polishing floors apply the wax with a cloth in hand, spreading it out thin in all directions, and leave it dry, which will take about a half hour. Then take a stiff brush (one of our weighted brushes) and rub the floor across first and with the grain afterwards. Place a piece of dry, soft cloth (felt or carpet) under the brush to give the finishing gloss—do not apply too much wax; it should be rubbed out in all directions before polishing.

To take care of old floors, for ordinary wiping use a brush or broom with a piece of cotton flannel pinned over it—an occasional rubbing with the weighted brush will keep a glossy surface to the floor. Soap should never be used, and the parts of the floor which have the most wear should be touched up occasionally with wax to keep it in good condition. Never use oil of any kind on floor; it is sure in time to darken the surface, and the beauty of the floor is in the natural color of the wood.

One pound of wax will cover 200 square feet, and one quart of parquet lac will cover 100 square feet.

C-2132

In above we show a floor of Plain Wood Carpet, and its adaptability to irregular shape.
Net price for a floor of this design, per square foot 11c
Quarter-sawn White Oak.

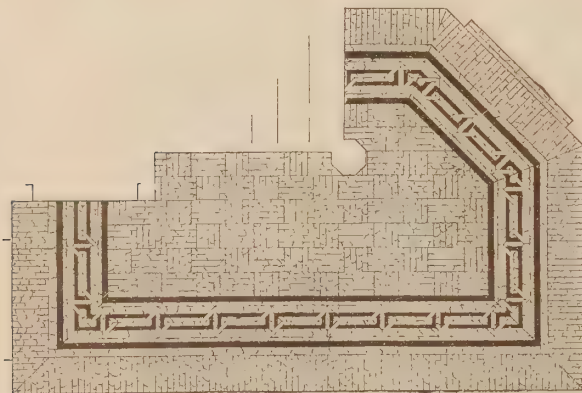

C-2134

Adapted to any shaped room. Net price as shown, per square foot. 16c
Using 2-inch Oak and 2-inch Cherry at wall line; Border of Oak and Cherry; Center Quar-
tered White Oak Carpet.

C-2135

Using 9-inch Carpet and 2-inch Mahogany at wall line; Border Oak, Maple Mahogany and Sycamore; Field Quartered White Oak. Adapted to any shaped room. Net price per square foot..... 25c

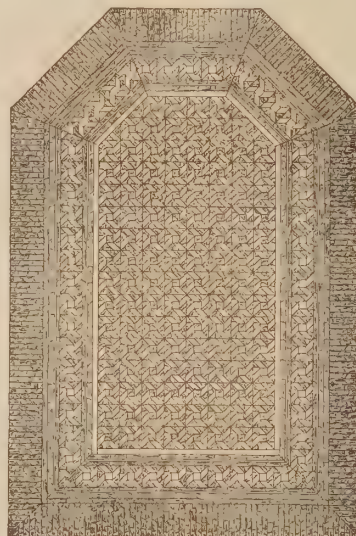

C-2139

Using 9-inch Carpet at wall line; Border Oak, Maple and Mahogany; Field Quartered White Oak. Adapted to any shaped room. Net price as shown, per square foot .23c

Wood Carpet

Wood Carpet (Fancy Hardwood Floors) can be laid over old floors as well as in new houses. Cheaper than carpets.

See Note below.

C-2137

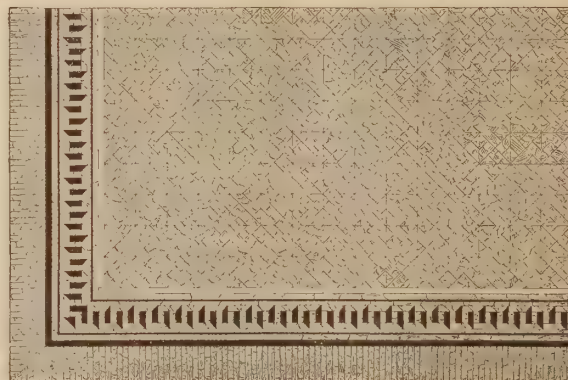

Using 9-inch Carpet at wall line; Border Oak and Maple; Filed Oak and Maple. Adapted to any shaped room. Net price as shown, per square foot.....26c

NOTE—These prices per square foot apply only where order contains 100 or more square feet of each design. Write for price if less, giving dimensions and diagram of room.

C-2138

Using 2-inch Oak and 2-inch Mahogany at wall line; Border 8-inch Oak, Maple and Mahogany; Field Oak, Cherry and Walnut. Adapted to any shaped room. Net price as shown, per square foot . 27c Above price based on a square floor; if circle or segment as shown on sketch, extra price.

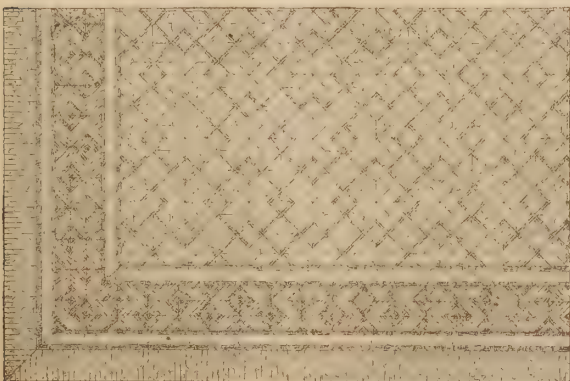

C-2136

Using 9-inch Carpet and 2-inch Cherry at wall line; Border Oak, Maple and Cherry; Field Quartered White Oak. Adapted to any shaped room. Net price as shown, per square foot . 23c

C-2145

Using 2-inch Oak and 2-inch Mahogany at wall line; Border 10-inch Oak and Mahogany; Center Quartered White Oak Carpet.
Adapted to any shaped room. Net price as shown, per square foot .17c.
Prices for any designs $\frac{7}{8}$ inch thick named on application.

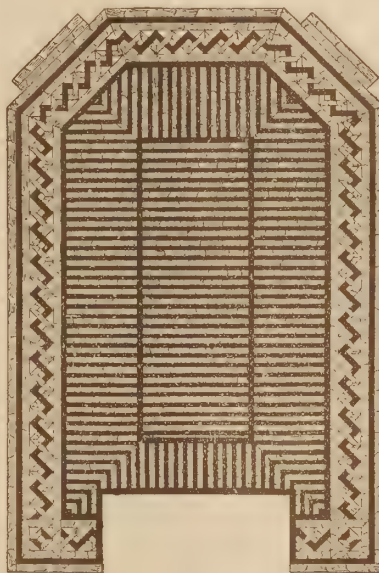

C-2149

Using 9-inch Carpet and $1\frac{1}{2}$ -inch Dark Oak at wall line; Border 21 inches wide, of Light Oak and Dark Oak. Field Quartered Light Oak and Dark Oak.
Adapted to any shaped room. Net price as shown, per square foot .25c

Wood Carpet

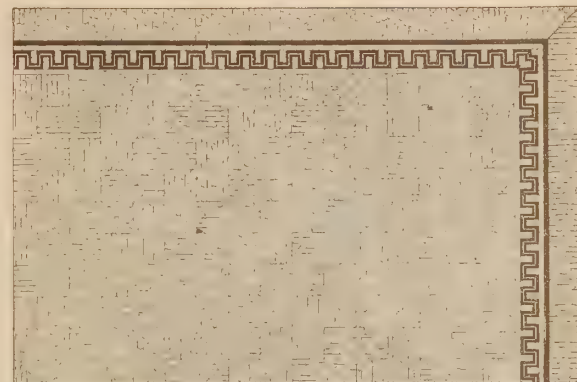

Nothing but the finest and most carefully selected kiln dried lumber is used in the manufacture of these floors.

C-2147

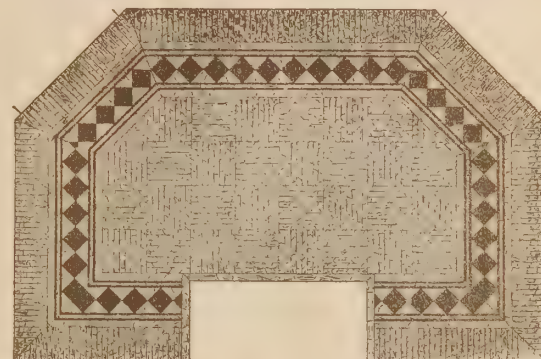

Using 2-inch Oak and $1\frac{1}{2}$ -inch Cherry at wall line; Border 10-inch Oak, Cherry and Maple; Center Oak and Cherry Carpet.
Adapted to any shaped room. Net price as shown per square foot 20c

Note—These prices apply only when orders contain 100 or more square feet of each design. Write for prices if less, and send dimensions and diagram of room.

C-2148

Using 9-inch Carpet and $1\frac{1}{2}$ -inch Cherry at wall line; Border 8 inches wide, of Oak, Maple and Cherry. Field Quartered White Oak.
Adapted to any shaped room. Net price as shown, per square foot . .17c

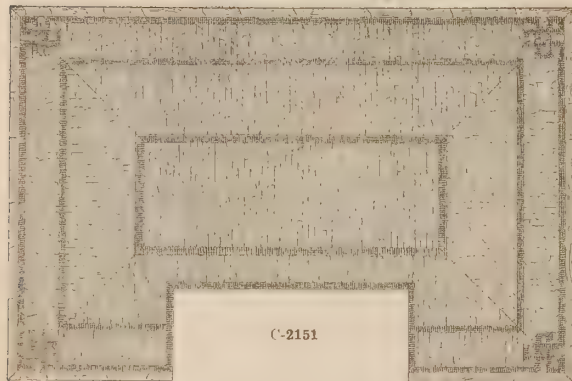

C-2150

Using 9-inch Carpet at wall line; Border Oak and Cherry; Field Quartered White Oak.
Adapted to any shaped room. Net price as shown, per square foot . .18c

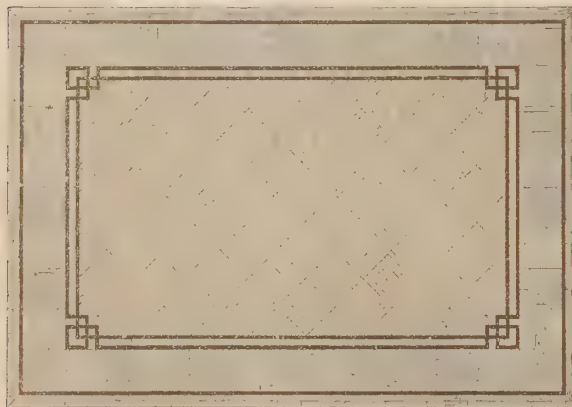

Wood Carpet

A Hardwood floor is beautiful, cleanly, saves much in carpet economy and lessens the drudgery of house cleaning and carpet beating. Carpets and rugs laid over a finished hardwood floor have about five times as much wearing quality as is the case where laid on a rough floor because the friction in walking over them is minimized just five times.

C-2151

Using 2-inch Oak at wall line; 2-inch Dark Oak forming ornamental corners, and Quarter-sawed Oak and Dark Oak strips for Field. Adapted to any shaped room. Net price as shown, 15c per square foot.

C-2154

Using Oak strips and 1-inch Cherry at wall line; Border of Quartered Oak Blocks and Strip Border 4-inch, and Corner Blocks Oak and Cherry; Center Quartered White Oak Field. Adapted to any shaped room. Net price as shown, 17c per square foot.

C-2160

Using 2-inch Oak at wall line with 1½-inch Dark Oak at each side of Border, 10 inches wide, of Oak, Maple and Dark Oak; Field Oak and Dark Oak.

Adapted to any shaped room. Net price as shown, 26c per square foot.

Price is based on floor with square corners. A border worked out for circle bay would be figured extra and approximately three times the price of the same amount of straight border.

These prices apply only when order contains 100 or more square feet. If less, send for price giving dimension and diagram of floor.

C-2153

Using 4-inch Oak at wall line with 1-inch Cherry at each side, and Border 8 inches wide of Oak, Maple and Cherry; Center Quartered White Oak Carpet. Adapted to any shaped room. Net price as shown, 16c per square foot.

C-2155

Using 2-inch Oak and 2-inch Cherry for Border; Field Quartered White Oak. Adapted to any shape room. Net price as shown, 21c per square foot. Our strips are all full width as named. All Oak is Quarter-sawed White. We use no plain-sawed or Red Oak.

C-2165

Using 2-inch Oak and 2-inch Mahogany at wall line; with Border 18 inches wide, Oak, Maple and Mahogany; Field Oak and Dark Oak.
Adapted to any shaped room. Net price as shown, 26c per square foot.

C-2167

French design, made of all Quartered White Oak, using Oak strips at wall line. Adapted to any shaped room of large size. Net price as shown, 32c per square foot.

Wood Carpet

UTILITY OF HARDWOOD FLOORING.

Wisdom directs and experience has taught that the floor of the future, be it in hall or in home, in factory or in palace, is to be of smooth, highly polished hardwood. There is a robust elegance about a hardwood floor which combines the delicacy of great natural beauty with the wearing qualities of iron. In points of economy and sanitation, the smooth-faced hardwood floor is virtually a necessity. It harbors no germs and for sanitary reasons is recommended by the best physicians, scientists and architects.

NOTE.—These prices apply only when order contains 100 or more square feet of each design. If less, write for price and send dimensions and diagram of floor.

We absolutely guarantee our qualities.

C 2166

French design, with quartered Oak strips and 2-inch Dark Oak strips at wall line. Field of Oak and Dark Oak.
Adapted to any shaped room of large size. Net price as shown, 32c per square foot.

C-2168

Using 9-inch Oak Carpet at wall line; with 1½-inch Cherry each side of Border of 8-inch Oak, Maple and Cherry; Field, Quartered White Oak, Herringbone.
Adapted to any shaped room. Net price as shown, 20c per square foot.

C-2171

Using 4-inch Oak at wall line; 4-inch Oak and Mahogany strip Border on each side of 12-inch Oak, Maple and Mahogany Border; Field all Quartered White Oak.

Net price per square foot.

24c

Wood Carpet

Wood Carpet can be easily laid by any ordinary carpenter, if he will follow the directions given, and the working plans we send. It can be laid right over your old floor or any ordinary flooring as a foundation.

Adapted to any shaped room. All prices made are for goods $\frac{3}{4}$ -inch thick and for goods uncut and measured before laid.

All Oak used in these floors, is Quarter-sawn and thoroughly kiln dried.

C-2172

Using 6-inch Oak at wall line; $1\frac{1}{2}$ -inch Mahogany each side of 12-inch Oak, Maple and Mahogany Border; Field Oak, Maple and Mahogany.

Net price per square foot.

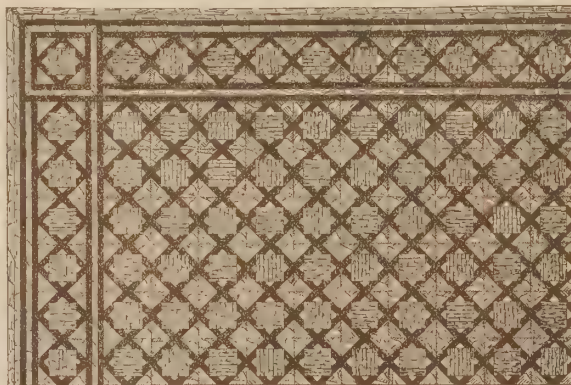

27c

Prompt Shipments YOU MET NO DELAY WHEN ORDERING FROM US

If there is any one thing we are strongly organized to execute, it is to make **Prompt Shipments.** We don't just say we do this but we actually **Do It.**

On any stock millwork orders you send us you can count on immediate shipment. As a central shipping Point for all railroad and lake boat lines Chicago has a big advantage.

Just send us a rush order for any stock stuff at any time and see how quick we get it to you.

C-2173

Using 4-inch Oak at wall line; $1\frac{1}{2}$ -inch Mahogany each side of 18-inch Oak, Maple and Mahogany border; Field Oak, Maple and Mahogany.

Net price per square foot.

Pawnee, Okla., March 28, 1908.

Chicago Millwork Supply Co.,
Chicago.

Gentlemen:—

Please find enclosed draft on National Park Bank, New York City, for \$91.05 in payment of shipment of millwork which was O. K. in every way.

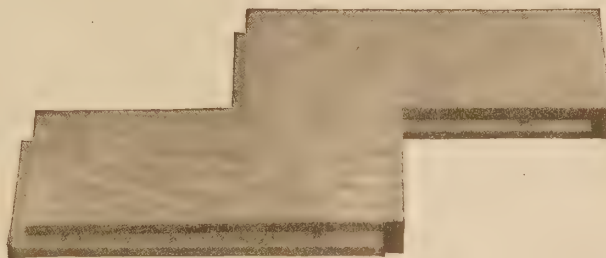

Respectfully yours,

ISAAC SMITH.

"Unequaled" Hardwood Flooring, Dressed and Matched

C-2200—Plain Oak

3/4-inch Thick, 1 1/2-inch Face.

Polished, tongued and grooved.
Prices are for full square foot area sufficient to cover.
Give size of floor and sketch in ordering.

Hardwood floors are healthful, handsome and economical. With modern appliances are easily kept clean and the natural beauty of the wood retained. Are cheaper than carpets, and when used in connection with rugs, give a very handsome effect in the furnishing of the modern home.

This 3/4-inch dressed and matched flooring takes the place of the old-fashioned thick flooring; is cheaper in price, easier laid and wears for all time. With ordinary care given hardwood flooring, you do not even wear through the finishing of the floor, let alone wearing out the floor. Consequently 3/4-inch flooring is supplanting thick floors and is laid on linings to form new floors in new houses.

But the special feature of the 3/4-inch flooring is its adaptability in covering old floors, doing away with the soft floors and carpets and giving a strictly "hygienic" floor, attractive, beautiful, lasting and finished in the natural wood.

Our flooring is run with a polished surface, tongued and grooved, matched ends, so that the question of laying and finishing a hardwood floor is now reduced to a minimum. As it is end matched, any lengths, however short, can be utilized, and the floor laid as substantially as though in one piece.

Maple flooring has no rival for durability and is used in office buildings, schools, public halls, churches, dwellings, stores, etc. Oak flooring, while adapted to all the uses of Maple is used largely in living rooms, sleeping apartments of the modern house, and is a wood of so much beauty and utility and so well known as to require but little description.

We furnish the Oak flooring in plain and quarter-sawn. Walnut and Cherry are handsome woods to lay in conjunction with either Oak or Maple, forming fancy floors, as the cuts on the following pages suggest.

The finishing of hardwood floors is simple and the amount of attention required to keep the floor in perfect order is less than sweeping old-fashioned carpets.

Our Guarantee Goes with Every Order.

See first page in this book as to our responsibility.

THESE QUOTATIONS ARE FOR "UNEQUALED"
1 1/2-IN. THICK HARDWOOD FLOORING THAT WILL
GRADE AS PER RULES PRINTED IN OPPOSITE
CORNER.

1 1/2 x 2 1/4, Select No. 1 Plain Oak.....	\$55.00	per M
1 1/2 x 2 1/4, Select No. 1 Maple.....	45.00	per M

Our 13-16 (or heavy) "Unequaled" hardwood flooring has a polished surface and is tongued, grooved and end-matched. It comes in lengths from 2 to 16 feet. This flooring is sold by board measure per thousand feet. In ordering allowance must be made for waste in cutting and difference in width as this flooring is figured on width of stock from which it is cut, which is three inches wide, while the actual width of the flooring when laid and matched is 2 1/4 inches wide. This flooring is shipped in bundles, carefully tied.

C 2205 Quarter Sawn Oak.

3/4 in. thick by 1 1/2 in. face.

C-2205—Quarter-sawn Oak, adapted to any shape room. Ne price, 10c per square foot

THESE QUOTATIONS ARE FOR "UNEQUALED" 3/4-INCH THICK HARDWOOD FLOORING THAT WILL GRADE AS PER RULES PRINTED BELOW.

3/4 x 1 1/2, Clear Plain Oak.....	8	cts. per sq. ft.
3/4 x 1 1/2, Select No. 1 Oak.....	6	cts. per sq. ft.
3/4 x 1 1/2, Clear Maple.....	6	cts. per sq. ft.
3/4 x 1 1/2, Select No. 1 Maple.....	5	cts. per sq. ft.

Our 3/4 "Unequaled" flooring has a polished surface and is tongued, grooved and end-matched. Prices quoted above include ENOUGH flooring to finish the specific surface which dimensions named in any order calls for. For instance, a room 10 x 12 would require 120 square feet and, if Clear Plain Oak were ordered, would cost \$9.60 net. This flooring is shipped paper wrapped in bundles. Standard lengths 2 to 16 feet.

RULES FOR GRADING FLOORING.

Clear Plain Sawn.—Must show one face practically free of defects, admitting a slight streak of bright sap on the edge, no exceeding over half its length. Standard lengths 2 to 16 feet.

Select No. 1.—Principal defect being sap and allowing very small pin knots or slight imperfections in the dressing, all of which can be laid without cutting to waste. Standard lengths, 1 to 16 feet.

ABOUT COST OF FINISHING

For general information of our customers for wood carpet wanting the proper finishing materials, including filler, parquet lac, wax and brads sufficient for laying, we will furnish same along with the wood carpet, at a cost not to exceed $2\frac{1}{2}$ c per square foot superficial measure of the room.

In ordering wood carpet or hardwood floors, where customers wish us to furnish the finishing materials, simply specify with the order, "Finishing materials complete," and we will ship the same with the flooring, at a price not to exceed above cost.

The finishing of hardwood flooring, materials to be used for finishing, etc., is a matter of judgment of the user. Our experience in this line of work teaches us that the filler, parquet lac and wax give the most satisfactory results; show the beauty of the wood, are easily kept clean, easily revived, retaining the natural beauty of the hardwoods.

Yours very truly,

CHICAGO MILLWORK SUPPLY CO.

Refrigerators

OUR GREAT SYSTEM OF COLD DRY AIR REFRIGERATION

Every Contractor, Builder and Owner should know of the advantages and superior features of Our Great System of Cold Dry Air Refrigeration. It has a positive and complete circulation in which there cannot be any counter or conflicting currents. In the illustration shown at the left corner the arrows indicate the direction of the air currents. The circulation of the air is complete and unobstructed, because our refrigerator has been constructed to comply as fully as possible with the well-known principle that warm air rises and cold air falls. The flues are so arranged that the warm air passes from the provision chamber of the refrigerator to the highest point over the ice chamber, flows over the whole mass of ice, where it is partly cooled and freed from moisture, then passes under the galvanized steel ice rack, where it is further cooled and freed from all moisture, and finally flows naturally down the cold air flue into the bottom of the provision chamber which it rapidly and completely fills, forcing the warm air up the flues on the sides. These refrigerators are guaranteed to be the best, most economical and sanitary on the market.

OUR GUARANTEE GOES WITH EVERY ORDER

It will pay you to push these seasonable goods. Shrewd buyers all over the country are handling them at a handsome profit. We guarantee them and do business on the plan of "Your Money Back if Not Satisfied." Send us your order. Write now.

"COLD STORAGE" WHITE ENAMEL LININGS

Our White Enamel is a pure mineral, prepared in our own laboratory, applied upon galvanized steel, and each coat baked at varying high degrees of heat.

It presents a gloss surface, similar to porcelain, will not peel or flake, is odorless and absolutely sanitary. We have manufactured it for four years, and it has been accorded general praise and highest commendation.

These pictures illustrate our "Cold Storage" White Enamel Linings.

t on the Principle that Warm Air Rises and
Cold Air Falls.

Our Patent Glass Trap

Its Advantages

This is a well-constructed sewer trap, and prevents outside air and odors from getting into the refrigerator.

It can never rust, and consequently never leak.

Being transparent sediment, which collects in all traps, can be seen and removed before the trap becomes clogged.

Being glass, dirt and filth from the ice will not cling to it as to metal, and thus it can be easily kept clean and sweet. All housekeepers will readily appreciate it.

We Replace all Broken and Damaged Traps at Cost.

ECONOMY RUBBER ROOFING

50 PER CENT SAVED

Flint Coated

50 PER CENT SAVED

Send for FREE SAMPLES and Roofing Book

Compare our samples and prices and quality with your local dealers. Look into it carefully and see that the saving is all we claim. Don't take our word for it. Look it up. Don't put on cheap burr cull shingles at a high price and have your customer kicking. Give him a modern roofing at a fair price that will outlast shingles and cost less.

MAKE YOU MORE MONEY

You can lay **ECONOMY FLINT-COATED RUBBER ROOFING** at one-fifth the cost per square for labor and get just as much or more profit than laying shingles will bring you, and you will have time left to do some other job.

We guarantee **ECONOMY FLINT-COATED RUBBER ROOFING** to be the best grade of Rubber Roofing on the market, made from pure asphalt and strong felt, put together scientifically; made to last. See opposite page telling how "Economy" is made.

"Economy" is sun-proof, water-proof, acid-proof, in fact, "Economy" is roof-proof.

This Building is Covered with
**C. M. S. Co.'s Economy
Flint Coated
Roofing**

What Weight to Use

ONE PLY is for use on sheds, barns, lean-to-sheds, out buildings, etc.

TWO PLY is good for houses, porch roofs, good barns, store buildings and wherever a durable and permanent roof is required.

THREE PLY is extra grade for the man who wants the best and where first cost is no consideration.

1 PLY. Per Square of 108 sq. ft., \$1.40.

2 PLY. Per Square of 108 sq. ft., 1.80.

3 PLY. Per Square of 108 sq. ft., 2.20.

Nails, cement and full directions sent free with each roll.

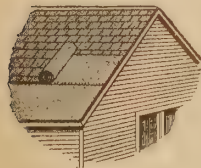

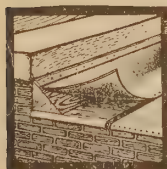

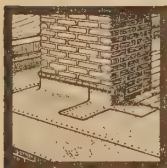

HOW ECONOMY RUBBER ROOFING IS MADE

HOW IT IS MADE

The material used in this roofing is absolutely the best that money can buy. It is made from the strongest, long-fibre, all-wool felt, thoroughly soaked and coated with the best and most durable water-proofing agent known, and has a coat of flint permanently rolled on the weather side which renders it not only weatherproof and waterproof, but also proof against sparks, cinders, fumes, gases, etc.

The felt fibre must of necessity be the strongest and best. Weak, wood paper stock cannot be used because great strength is necessary to stand the water-proofing and toughening process it is put through. The felt is run from a large roll through the full length of a long steel tank where it is thoroughly saturated with the water-proofing compound. This water-proofing compound contains absolutely NO TAR and is a pure asphalt mixture. The compound, while in the tank is heated to over 300 degrees Fahrenheit. As the felt leaves the tank, the compound is forced permanently into the fibre as it passes between a set of steel rollers, under heavy pressure. Both sides are then coated heavily with a similar water-proofing that resists the action of the elements and protects the felt. This is a very even and thorough coating and does away with the necessity of painting the roofing at the time it is put on. The flint coating is then rolled on, after which the roofing is allowed to cool and is put up in rolls ready for shipment.

The manufacturers of this roofing have had many years' experience and possess a thorough and practical knowledge of compounding. Their factory is equipped with the best machinery to be had and the roofing which they turn out for our customers is as near perfection as human ingenuity and skilled workmanship can make it.

Bishopric Ready Plaster Board

A Perfect Substitute for Plaster, Sheathing and Partitions. No Skilled Labor Necessary. Anyone Can do Their Own Plastering at Home.

The Only Material Produced that Stands Climatic Conditions.

Bishopric Lumber is used as sheathing. Notice illustrations as to how it is applied. It is made to suit any weather boarding. In applying Bishopric Lumber, as sheathing, you save half the labor and apply with one handling a two-ply Asphalt Mastic Coated paper saving the wood sheathing and tar paper.

Bishopric Lumber for interior finish, when applied to studding is ready for decoration, all joints being perfectly smooth, making the wall vermin proof and a perfect deadener of sound.

OUR PRICE

Carefully crated for shipment, \$22.00 per 1,000 square feet.

Bishopric Lumber keeps out water, dampness, heat, cold and winds.

Write for samples and see it for yourself.

Bishopric Lumber, as plaster, is more durable than lath and plaster. There is no breaking or falling off. It costs 40 per cent. less than plaster and any one can apply it with hatchet and saw. Bishopric Lumber is more economical than wood sheathing and plaster, and is applied with one tradesman.

Bishopric Lumber is made 4 ft. wide with the lath embedded in the hot Asphalt Mastic at a pressure of 500 lbs. to the square inch, thus assuring perfect adhesion and thoroughly stiffening the combination. In applying Bishopric Lumber as sheathing, it should be nailed through each lath to the studding, in order to develop the full strength of the material.

Bishopric Lumber is a patented material, a perfect substitute for lumber and plaster and costs less money and more economical than any material made.

C-3180

The best medium-priced step ladder in the market. Has iron bracket at top, strong anchor iron under each step, and a good practical spreading brace for locking legs when open. This ladder is first-class in every respect, made of selected stock, and will satisfy the most critical buyer.

Art and Crystal Leaded Glass

WE SHOW IN THIS CATALOG ONLY A FEW DESIGNS OF ART GLASS. IF YOU ARE INTERESTED, SEND FOR OUR SPECIAL ART GLASS SUPPLEMENT No. 25, containing 50 pages—about 400 designs in color—and net prices FREE. Our work is of the highest grade and strictly guaranteed.

Directions for Ordering

When ordering Art Glass always state which is the width and which is the height of the glass, naming the width first: as, for instance, a light ordered 24x36 would indicate that 24 inches is the width and 36 inches is the height. In ordering, to be absolutely sure, the best way is to make a small sketch.

We furnish Sash for Art Glass at very low prices. We make no charge for glazing Art Glass ordered from us. There is less risk of breakage when glass is shipped set in the sash.

Owing to the fact that all sizes are desired, it is impossible to carry Art Glass in stock (with the few exceptions shown on pages 104 and 105), and we make up your glass specially to order and we require from two to three weeks to make up shipment.

Wire Glass For Sky Lights, Warehouses, Etc.

Wire Glass

Net prices of Wired Ribbed or rough plate glass

$\frac{1}{4}$ -inch thick, per sq. ft., either ribbed or rough wired glass.	\$0.28
$\frac{3}{8}$ -inch thick, per sq. ft., either ribbed or rough wired glass.	.33

DESCRIPTION

Wired Glass is made in stock sheets from 14 inches up to 40 inches wide by 50 to 100 inches long. We recommend its use in widths not wider than 24 inches, and where the opening exceeds this would suggest an iron muntin in the frame, making a division.

Wired Glass, on account of its fire retardent qualities, so acknowledged by underwriters through reduction in insurance rates, is fast coming into general use for sky lights, factory windows, basement windows, train sheds and in all residential and commercial buildings with alley or area exposures.

Wired Glass, set in approved iron frames, takes the place of iron fire shutters and the same distinction is given insurance rates by underwriters to buildings glazed with wire glass as to buildings equipped with iron shutters.

A wired glass opening costs less than plain glass with iron shutters and will diffuse more light than plain glass—is better for fire protection than iron shutters. Samples sent on application.

SCREEN WINDOWS

(Made to order only)

C-435

C-440

C-440. A full Screen. Covers entire window, and to arrive at cost you measure entire outside opening of your window. As for instance, a window 12x28, 4 ft. measures $12\frac{1}{2}$ square feet at Sc. equals \$1.00.

Price per square foot..... 8c

Above price not painted. For painting or varnishing, add 15 cents per coat.

No screen figured less than 60 cents.

These prices are for black wire. Should you want Galvanized Wire, add 2 cents per square foot; Pearl Wire, add $3\frac{1}{2}$ cents per square foot.

C-435—Half-Screens are recommended, and are largely used.
Price per square foot..... 9c

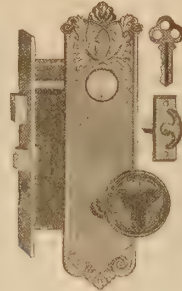

Above price not painted. For painting or varnishing, add 10 cents per coat.

No screen figured less than 60 cents.

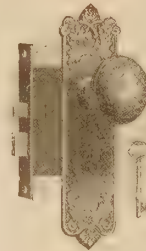

C-5000

Lock $4\frac{1}{2} \times 3\frac{3}{4}$ inches, escutcheon $10\frac{3}{4} \times 3$ inches. Front Door Lock. Bronze metal face and bolts, steel keys, bronze metal knobs and escutcheons, sand blast, old copper finish. Net price per set, complete.....\$2.80

TROLLEY, BALL-BEARING, NOISELESS HOUSE DOOR HANGERS WITH WOOD LINED TRACK

Nos. C6640 to C6655

Adjustment in Hangers and Track.
Hangers are fitted with the finest case hardened ball-bearings. The steel trolley rail is fitted with a wood strip on which the hangers run, taking away all the hitch, jar and rattle of a steel rail, making the run smooth and noiseless.

Pulley

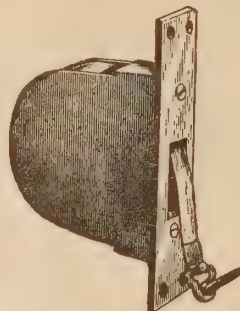

Mortise

C-5466

Plain faced polished wheel made to fit a mortise of 1-inch holes bored $\frac{3}{4}$ -inch from centers. Each pulley has a gauge on the edge, to accurately mark center in which to start the bit, 2-inch wheel. Net per dozen.....\$0.35

C-5467. Same as C-5466, without gauge on edge of pulley. Net price, per dozen....\$0.30

Side Pattern

Sash Balances are adapted to old as well as new work, and can be used in many places where weights and cord would be impracticable. They are easily applied, run noiselessly and if directions are carried out we warrant every Balance to work perfectly.

Note—Where there is not room enough for a Side Balance, we have a special Balance for the top of window which is also used in mullion style windows. Prices same as for Side or Regular Balances.

Net Prices—Side Pattern

We ship Side Patterns unless Top Patterns specially ordered. Per set (four balances). Enough for two sash.

IRON SASH WEIGHTS

We furnish Sash Weights both in iron and lead. In iron from 3 to 26 pounds, at $1\frac{3}{4}$ c per pound; and in lead, both square and round, in any size wanted at lowest market prices.

Wire Door Mats

C-5810 to C-5811

C-5815 to C-5817

Made in this style up to 18x30 inches
(no center braces).

Made in this style over 18x30 inches
(with center braces).

Our wire Mats are made from galvanized steel wire of a temper adapted to this particular use, which gives it a desirable and elastic surface. They have a rigid frame, which makes them lie flat and prevents curling. Both surfaces are alike, making it reversible. Effectually removes dirt, allowing it to drop through and preventing the meshes from clogging.

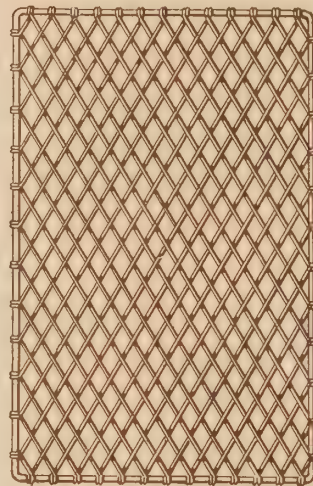

Net Price Each

C-5810—16x24 (no center brace).....	\$0.90
C-5811—18x30 (no center brace).....	1.10

MORRILL'S PATTERN SAW SET

C-6008. For rip, hand and buck saws.

Net price each.....\$0.60

LATEST IMPROVED GENUINE MORRELL SAW SET

This saw set has developed with time and now is acknowledged among all classes of mechanics to be the only truly scientific saw set ever produced. The revolving anvil with indicator subdivided and marked with figures, the figures showing the number of teeth to the inch in the saw to be set; for example, if the saw has four teeth to the inch, turn the anvil until the figure 4 comes up directly in front of the plunger, and so on. Leave the set screw so the saw will pass through without friction. When you wish to do fine work, turn the set screw back to suit your own judgment, otherwise it will be all right for use in all ordinary work.

AUTOMATIC DRILL

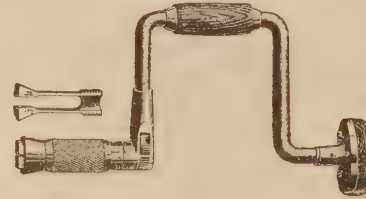

C-6605-6

The cut shows magazine for holding drill points open.

The "Yankee" embodies improvements over those now in the market in the magazine for drills. This is found in handle and is reached by pushing catch toward top of tool, which causes interior of handle to move upward, showing all the drills in plain sight (as in illustration) and so they can be quickly removed. This enables user to quickly select drill required. The chuck is of new design, is stronger and will last longer than any now used in such tools.

Dumb Waiters

THE NATIONAL

The National Dumb Waiter is adapted to places where 50 lbs. or less are to be carried.

Diameter of large wheel is 12 inches and the small wheels 3 and 4 inches.

Each set contains one large wheel and 5 small wheels.

Full directions for erecting and enabling any person easily to put them up. Rope, weight and car not included.

Any ordinary sash weight can be used.

C-5875—Dumb Waiter. Price, per set.....\$7.50

C-5875

THE NEW YORK

These fixtures have been on the market for years, and are in general use throughout the United States, giving universal satisfaction. They are so simple to set up that any ordinary mechanic, by the aid of our diagrams and instructions which accompany each set, need never fail to complete it properly. They are packed one in a case, all complete, and can be used in all openings not over 24 inches square.

The New York moves with perfect ease, and any child of ten years can operate it. It is absolutely noiseless and has no parts that are liable to breakage. Each waiter is provided with a grip, in order that the car when loaded beyond balance may be held at any desired point. Capacity, 50 to 75 lbs.

The set as packed in case complete consists of the following pieces: Six 8-inch wheels, two 4-inch wheels, one pulley for weight and safety rope, five 1 1/4-inch thimbles, one 3/4-inch thimble, one ring for safety rope, one brake grip, one ring for brake cord, one hooded pulley for grip, one patent plate, four car guides.

C-5880.—Dumb Waiter. Price, per set.....\$19.50

C-5880

COMPLETE ELECTRIC BELL SET

Can be Sold, not alone for New Houses, but to Improve Old Ones
C-6310

ELECTRIC BELL

Consisting of one 2 1/2-inch electric bell, one wood push button one dry battery, 75 feet insulated wire, staples complete, packed in a box.

Net price per set, complete.....\$1.00

The dry battery or electrical power will last five years in perfect order, and can then be replaced at a cost of less than 30 cents. It is not affected by temperature. Any carpenter can string the wires, set the bell, battery and push-button in two hours' work, and when set is immediately in running order. The setting of an electric bell set is a simple matter, and requires no expert.

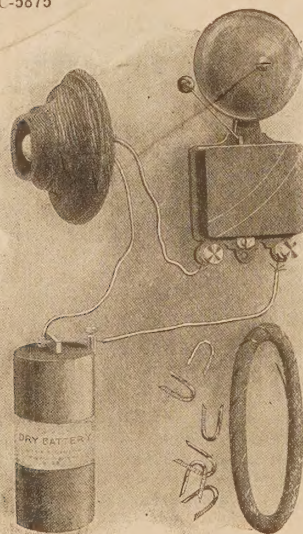

Simple, Durable, Cheap.

DIRECTIONS

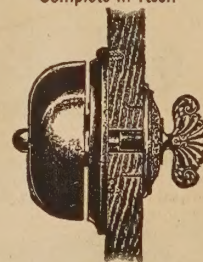

The bell can be fastened to the wall, usually ten to fourteen inches from the ceiling in the servant's room, or the room mostly occupied. The battery can be put anywhere that is most convenient and out of the way. It is usually placed under the sink or in a closet near the bell. As the cut shows, the wire has to be uncovered about one inch back; that is, the covering to the wire removed so that the wire itself comes in contact with the bell, battery and the push button at the points provided.

After fastening the bell and placing the battery in such place as you want them, bore a hole through the front door casing (usually about opposite the door knob) and through it work the wire to connect with the push button that you fasten on the outside. Then lead the wire along your ceiling or along the base board, or in such place as to keep it mostly out of sight, using the staples that come with the set. Lead one wire from the push-button to the bell and one wire from the push-button to the battery (both the wires can be run along together under the same staples) and one wire from the battery to the bell, as the cut shows, and this forms the connection.

It is a very simple device (nothing dangerous), and at first sight your carpenter will understand thoroughly how to set it.

Complete in Itself

C-5790

A nickel-plated, bell metal Bell, crank handle and escutcheon, bronze metal, old copper finish. Net price, each.....\$0.90

Effective, simple, strong. Requires no winding, has no springs or attachments to get out of order. Always ready for use. Will last as long as the house. Packed complete in a box. Easily fitted by any carpenter to the front door, as cut indicates. Highly ornamental.
